Gas Consumers Within Reach Must Be Served

HARRISBURG, July 25.—Consum-
ers of gas must be served who can be
reached by a reasonable outlay of
capital and each situation must be de-
termined by consideration of the par-
ticular facts and elements involved.
Holds the Public Service Commission
in sustaining the complaint of James
E. Cook that the Equitable Gas Com-
pany had refused to extend its ser-
vice main to Aspinwall.

The commission says it is apparent
the extension would not be self sus-
taining at the start and regarding the
suggestion of the company that the
consumers finance the extension and
have the cost refunded to them with-
in five years, says: "A general rule
of this nature cannot, however, be ap-
plied in every situation arising in a
utility's territory. As cited by the
commission in other complaints of
this kind the determining factor is not
profit alone."

A Monument at Bushy Run to Be Requested

HARRISBURG, July 26—Members of the State Historical Commission will ask the next Legislature to provide sufficient funds for a proper monument on the site of the battle of Bushy Run, the commission being in the unusual position of having rights to the historic field, but no money to erect a fitting memorial, or indeed any kind of a marker. The funds of the commission, like those of almost every other branch of the State government, were reduced last year and its program had to be much abridged.

State Librarian George P. Donehon, who recently returned from a visit to Western Pennsylvania, said he hoped the matter of erecting a monument on this field would be considered by the General Assembly because Bushy Run was really one of the decisive battles of American history and Pennsylvania troops played much in breaking the power of the French and Indians on the field within the Keystone State.

—Lottie E. Soper, Nurse, 411 Pine St., Philadelphia, Pa.

The reason Sykes Comfort Powder is so successful in healing and preventing chafing, scalding, rashes and skin irritations is because it contains six healing, antiseptic ingredients not found in ordinary talcums. Physicians and nurses call it "a lifesaving wonder."

More Interesting Than Ever!

More Helpful Than Ever!

The art of home dressmaking has received new impetus during the past season—vastly more dresses being made in peoples' homes than for many years.

Of course there has been a considerable drop in the prices of handsome dress fabrics. But an even larger reason is this—the variety and beauty of dress fabrics is now so great that it enables women of taste to create gowns that give them a much desired individuality.

This advantage, together with the low cost of the materials, gives reason enough for this new activity in home sewing.

And now comes the greatest reason of all—REMNANT DAYS with their proud collections of short lengths and small pieces in all the fabrics favored for summer and early fall. Silks, satins, ginghams, lingerie materials, woollens, suitings—fabrics to fill every woman's need.

—Some For A Quarter Less
—Some For A Third Less
—Some For Just Half Price

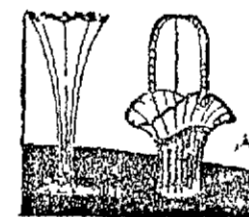

But Remnant Day prices affect more than merely fabrics. Gathered on the counters, you will find bits of jewelry, pairs of hose, glassware, china, pillows and many groups of similar articles. All of them sharply reduced in price.

The object of Remnant Day is to dispose of all these odds and ends and to clear our shelves for the fall. This is to be achieved by the season's lowest prices. Don't miss these many opportunities to save your money.
